AWS PROJECTS

- Lovely Professional University, Phagwara** **Jan 2018-Feb 2018**
Fault tolerant website using Amazon AWS S3: Hosted a highly fault tolerant and highly resilient website using Amazon s3 bucket and delivering it through Amazon AWS CloudFront. The website has been tested with stress to its maximum capacity. The hosted website delivers booking of a grand hotel named HYATT.
- Lovely Professional University, Phagwara** **Dec 2017-Jan 2018**
Amazon ALEXA skill: Build an Amazon Alexa skill which gives information about LPU. We can ask Alexa about present weather conditions and some interesting facts about my university LPU.
- Lovely Professional University, Phagwara** **April 2018- Present**
AWS LEX ChatBot: Built a smart bot using Amazon LEX service for my personal portfolio website (www.anubhav4life.com) which helps visitors (recruiters and students) to know about me and my projects. I used Amazon S3 and Amazon Cognito service to set up and deploy my Smart Bot in my personalized website. In near future I will also wire up my bot with web analytics and will fire certain analytic events when visitor reaches to a certain step in the interaction.

OTHER PROJECTS

- National institute of information technology, West Bengal** **June 2015-July 2015**
Training on C, C++ and Java: undergone 1 month Training in C, C++ and Java programming languages and learnt their use in developing applications. Developed a project on making an application for railway reservation system using C and C++. Developed a Banking application using Java language.
- Lovely Professional University, Phagwara** **June 2016-July 2016**
Training on Big Data and Hadoop: undergone a one month training on data analysis using tools of hadoop. Learnt the basics of big data and handling it. Learnt to work with new tools like Hbase, Hive, Pig, Oozie, Map Reduce, Flume and Spark.
- Lovely Professional University, Phagwara** **Oct 2017-Nov 2017**
Doctors Appointment System: Built a website using PHP where patients can take online appointment and doctors can manage their appointments online. This website have been hosted using LAMP server.
